

ADVANCING RECOVERY COLLABORATIVE

ADVANCING RECOVERY COLLABORATIVE

BUILD HOPE AND BELIEF IN RECOVERY

Help clients and staff understand that recovery is a possibility for all people diagnosed with serious mental health issues

Assist each person to discover and express their evolving definition of recovery

Demonstrate organizational belief in recovery

IDENTIFY MEANINGFUL GOALS AND STRENGTHS TO ACHIEVE THEM

Identify clients' usable strengths

Set and achieve meaningful and important goals using highly individualized and specific strengths

Align with client to build a collaborative working relationship

PLAN TO ACHIEVE GOALS

Plan to achieve goals by breaking them into smaller, measurable steps (short-term goals)

Use stages of treatment scale to guide intervention and evaluate progress

Use Shared Decision-Making Around the Use of Medications

ACHIEVE GOALS TO PROMOTE RECOVERY

Evaluate progress and update the plan at each visit

Assist client with obstacle removal and create opportunities for goal achievement at every visit

Make use of naturally occurring resources to help clients connect to their community

Support clients to prepare to and then exit the system

Use self-management strategies to help people progress in their recovery

Movement to higher levels of recovery, and greater purpose and connection in their community of choice

DESIGN SYSTEM INFRASTRUCTURE TO SUPPORT INDIVIDUALIZED PATHWAYS TO RECOVERY

Provide leadership for recovery

Integrate recovery orientation into routine operations and daily management

Provide clinical mentoring/coaching and skill development that support clients' recovery progress

Develop and support effective use of peer supports (employed and volunteer) for clients at different stages of recovery

Involve peers in system design and improvement

Make access and transitions easier and responsive to clients' goals
