Cricket Mitchell, Ph.D.

Cricket Mitchell is a clinical research psychologist with more than 10 years of experience as a research, evaluation and program performance consultant. She is particularly interested in the sustainable adoption of evidence-based practices in usual care settings, as well as data-driven decision making in clinical service delivery. Her areas of expertise are in research design and methodology, quantitative data analysis, program evaluation, behavioral medicine, cognitive behavioral interventions, early childhood mental health, pediatric psychology and violence prevention. Dr. Mitchell is a graduate of the Joint Doctoral Program in Clinical Psychology between the University of California at San Diego and San Diego State University.
