

Adolescent Early Intervention and SUD Treatment Summit Focused Conversation Instructions and Summary

Collaborative Roundtable: Sit at the county table in which you work. Combine or split groups based on no more than 10 – 12 participants. Association or Statewide representatives can choose a county of interest. Each table chooses a facilitator and a scribe for completing this form – one form for each group. There are three parts to this session: 1) 8- 10 minute discussion of the ORID questions in the following order - objective, reflective, interpretive, and decisional questions; It's a focused brainstorm. 2) 5 minutes for each participant to complete the What's Next Form which goes home; and 3) 5-10 minute sharing of one key takeaway, a goal and/or next steps which the scribe will capture on this form and turn into Summit staff.
