

Adolescent Early Intervention and SUD Treatment Summit

Focused Conversation Method: ORID (Observation, Reflection, Interpretive, Decisional)

Objective

- **What are the facts?**
- What happened? What did you see, say? Refrain from evaluating or interpreting?

Reflective

- **How do we feel about what we see?**
- What feelings came up during the experience: were you surprised, excited, frustrated, disappointed, angry? How does this information relate to your own experiences?

Interpretive

- **Why is this happening? What meaning does this hold for us?**
- What is the significance of this information? What insights do we have about this issue and how this impacts our communities?

Decisional

- **What is our resolve? What actions are desired?**
- Based on the data, its meaning, and its significance, what do we want to do about adolescent early intervention and treatment? What actions might we take?
