PATRICIA A. JUDD, PH.D.
CLINICAL PROFESSOR OF PSYCHIATRY
DIRECTOR, UC SAN DIEGO OUTPATIENT
PSYCHIATRIC SERVICES-HILLCREST

Challenges

- 1. True integration of services for individuals with co-occurring substance abuse and other mental disorders
- 2. Payment rates are different, productivity expectations are different, medical record documentation is different
- 3. Transition of care between specialty mental health and managed Medi-Cal plans.

Strategies

- Uniform payment structure
- Single electronic health record with same documentation requirements.
- Clear transfer of care pathways for patients to move back and forth as needed. Provide pathway at any intake point.
