But caring for adults & children with serious behavioral health needs...

- Complex and expensive
- Payers and hospitals struggling to lower costs, improve quality among populations with comorbidities and high behavioral health needs
Our niche: caring for complex, costly patients

Socially vulnerable patients
(income, language, race/ethnicity, health disparities)

Clinically vulnerable patients
(complex, difficult healthcare needs)

You Are Here

Two Roles of Behavioral Health Providers in new healthcare delivery system

• Behavioral health inside medical homes—deeply embedded in primary care team, prevention and early intervention, addressing behaviors as well as disorders

• Behavioral health specialty centers of excellence—partnering with medical homes to provide high-value, whole-health care to people with complex conditions
As of August 2015, 19 states have a total of 26 approved Medicaid health home models. States with Approved Health Home SPAs (number of approved health home models) — Alabama, Idaho, Iowa (2), Kansas, Maine (2), Maryland, Michigan, Missouri (2), New Jersey (2), New York, North Carolina, Ohio, Oklahoma (2), Rhode Island (3), South Dakota, Vermont, Washington, West Virginia, Wisconsin
Integration’s Key Ingredients

• Aligned financial incentives
• Real time information sharing
• Interdisciplinary care teams
• High performing provider networks
• Strong quality management systems
